

Millersburg Road Sanitary Sewer Extension CDBG Project Public Hearing

Date/Time: 10:30 p.m. | August 25, 2026

Location: 525 High Street, Paris, KY 40361

The public hearing was called to order at 10:30 a.m. by John Plummer, Mayor, City of Paris.

The meeting was attended by city officials. See the attendance sheet for attendees.

Casey Cash spoke about the CDBG program, funding, and the Millersburg Sanitary Sewer Project. The floor was opened for questions and discussion.

Matt Belcher and Brad Oberlander discussed funding via the Fund B and KCED's G.R.A.N.T. Program.

Mr. Oberlander asked about including a water line project, Mr. Cash discussed applying for a CDBG the following cycle. Mr. Belcher brought up the Judge Executive of Bourbon County, and the desire for the county to fund a water line. Discussion for a future water project continued.

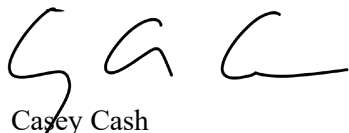

The project scope was discussed, with questions raised regarding the current proposed line size and future growth. Over-built lines due to a lack of growth, or more expensive future construction as a result of not building to future growth were the two main concerns.

Discussions on land use and considering possible, future growth were laid out.

Easement Acquisitions were discussed, it is not likely any easements through private property will be required, but the city commission was notified of URA regulations.

The meeting was adjourned at 11:02 a.m. by Mr. Cash.

Respectfully submitted,
